

Parents,

Below I am listing “How-To” on login procedures that your student will be able to reference for my class. This document will also be posted in Google Classroom and on my Google site so that there are multiple ways to reference in case your student gets confused on where they need to go or how they need to get to something. The ultimate goal is that students will have access to www.clever.com which will hold all of their login info for every resource they need for every class (they will log in with their Gmail info to access this source). If in case this website does not get all of the applications your student needs, then they can look at this document to navigate.

Log in Directions

How do I log in to my school Gmail?

1. Open a web browser (Chrome if you have it) and go to www.google.com
2. Click the blue “sign in” button at the top right of the browser
3. Click “use another account” or click your email if you see it – your button will depend on if your computer saved your information or not.
4. Type in your email if it’s not already there. Your email is your personal lunch code followed by @wimberleyisd.net

Here is an example of what my email would be if my lunch code was 12345

12345@wimberleyisd.net

5. Press next
6. Enter the password given to you by the school and it should log you into your account
7. If the computer says your password or username is incorrect you will need to let me know so that I can get that information to you.
